Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2014 - December 31, 2014

Filing Confirmation Number: 0006621505

Filing Deadline: January 15, 2015

FRN: 0013465190

Filing Date: 01/15/2015 04:20 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: PLATINUMTEL COMMUNICATIONS

Brand Names: PTEL Mobile
Care Wireless
GIVmobile

PO Box:

Street Address: 8108 S. ROBERST RD

City: JUSTICE

State: IL

Zip Code: 60458

Contact Name: RAED NAJJAR

Contact Phone: (708) 458-9999

Contact Fax:

Contact Email: raed.najjar@ptel.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?

N/A

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.ptel.com

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Salesmen provide dealers with all pertinent information and educate them about features and capabilities of the handsets. Dealers in turn pass this information to the final customers. In addition, the customer Service Department at PlatinumTel provides such information and answers questions directly to calling customers.

Methodology for Functionality Levels

PlatinumTel provides a wide range of handsets ranging from basic phones, medium, to smart phones. Capabilities, features, and prices will vary accordingly. PlatinumTel offers three main categories of handset models classified as follows:

1. Feature Phones: a mid-range priced mobile phone. Although a more basic device, it usually has more features than the standard calling and text messaging. It is intended for customers who want a moderately priced and multipurpose phone without the expense of a high-end smartphone. Examples include: flip and clamshell phones, as well as bar phones.
2. QWERTY/Messaging Phones: a mid to higher-range priced mobile phone that includes a full QWERTY keyboard. It is intended to allow customers to text easily, without having to use a number pad or touch screen. Examples include: phones with slide-out keyboards, or bar phones with a full keyboard.
3. Smartphones: usually a higher-range priced mobile phone built on a mobile operating system, with more advanced computing capability and higher speed connectivity than a feature phone. These devices usually offer full web browsing, Wi-Fi capability, high resolution screens, and better built-in cameras. They also have the capability to

download applications such as social networks, games, and music. Examples include: iPhones, Androids, and Blackberries.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 40

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	18	45%	15	38%	7	18%	40
